

Contract Proposal for Weavelt Early Contributors

Hello Sir/Ma,

Before we begin, I want us all to be aligned and clear.

Weavelt is still an unfunded startup, so there will be no continuous or monthly payments for now. What I can guarantee is a stipend/reward when the token launches, and also a review in the next two months to see the progress and decide the next steps for everyone involved.

I'm looking for people who will be committed and treat Weavelt like something they helped build - not just a side gig. You will need to understand the product deeply, pitch it, talk about it, and represent it confidently. That's the type of energy and ownership this project needs at this stage.

Commitment Terms

- No salary or monthly payment at the moment.
- A launch stipend will be shared to each of the contributors (currently planned: 0.25 SOL), or adjusted based on contribution).
- Roles are contribution-based, not full employment.
- You agree to actively participate, communicate, and help move the product forward.

What I need from you

If you accept these terms, please reply with:

"I have read and agreed to the Weavelt Early Contributor Agreement."

Include your full name and date.

This serves as your acceptance of the contract.

Thank you, and I'm looking forward to building something meaningful together.

(Your Name)
